## ■ 1.1 Regulations information

- CE compliance

This device is classed as a technical information equipment (ITE) in class B and is intended for use in living room and office.

**CAUTION:** Any changes or modifications not expressly approved by the guarantee of this device could void the user's authority to operate the equipment.

---

## ■ 1.2 Safety instructions

The following safety precautions will increase the life of the notebook pc. Follow all Precautions and instructions.

Do not place this device underneath heavy loads or in an unstable position.

Do not use or expose this device around magnetic fields as magnetic interference may affect the performance of the device.

Do not expose this device to high levels of direct sunlight, high-humidity or wet conditions.

Do not block the air vents to this device or impede the airflow in any way.

Do not expose to or use near liquid, rain, or moisture.

Do not use the modem during electrical storms.

- The unit can be operated at an ambient temperature of max. 35°C (95°F). Do not subject it to temperatures below 5°C (41°F) or above 35°C (95°F).
- CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

---

## ■ 1.3 Notes for this manual

CAUTION! Important information that must be followed for safe operation.

---

NOTE : Information for special situations.

# Getting to know the basics

---

## ■ 2.1 Product specification

This User's Manual provides instructions and illustrations on how to operate this notebook pc. It is recommended to read this manual carefully before using this notebook pc.

### • Physical characteristics

---

Dimension	381.15 x 267.05 x 20.3 mm
Weight	2.1kg

### • CPU

---

Support processor	Intel® Skylake platform
-------------------	-------------------------

### • Memory

---

DDR3 (optional)	DDR3L 1600 MHz, 1 x RAM Socket System DDR3L up to 8GB/16GB total
-----------------	---

### • Power

---

AC adapter	15.6" : 65 Watts, 2/3 Pin
Battery	Li-ion battery

## • Storage

HDD	2.5" SATA HDD support, 7mm, 5400rpm
EMMC (optional)	On board EMMC support, 32GB Min
Card Reader	Support SD/SDHC/SDXC 3.0 memory card

## • I/O port

USB (optional)	USB 3.0 x 2 + USB 2.0 x 1
DC-in	x 1
HDMI	x 1
RJ45	x 1
Headphone Jack	x 1 for external microphone + headphone (iPhone type supported)
Card reader socket (optional)	x 1 (SD/SDHC/SDXC 3.0)
Kensington® Lock	x 1

## • Audio

Audio codec	Azalia standard support, D3 mode support
Speaker	Built-in
Microphone	Internal microphone support

## • Input

Keyboard	Standard NB KB
Pointing device	PS2 touch pad with 2 buttons

## • Display

LCD (optional)	15.6" HD, 16:9 LED type, resolution 1366x 768
----------------	---

---

## • Communication port

---

LAN controller	Supports 10/100/1000 Mb/Sec.
Network proxy-remote wake	Supports S3/S4/S5 wake ON LAN (WOL) feature Sleep mode or LPM <10W
Wireless LAN (optional)	IEEE802.11b/g/n/ac or IEEE802.11b/g/n support or IEEE802.11 a/b/g/n/ac support

## • Webcam

---

Webcam (optional)	Built-in camera module with D-Mic/Windows Cortana support, 0.3M/1M/HD webcam
-------------------	--

## • Optional

---

Wireless LAN + bluetooth	Support IEEE 802.11 b/g/n/ac, BT 4.0
--------------------------	--------------------------------------

HW TPM FW2.0 support

---

**CAUTION: MODEL IS DESIGNED TO USE WITH THE DC INPUT:  
(19V/2.1A) or (19V/3.42A) ADAPTERS.**

**CAUTION!** Adapter watt should follow default setting or refer to rating label information.

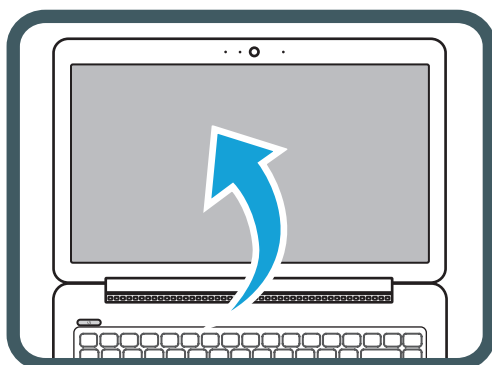

---

## ■ 2.2 Preparing your notebook pc

- 1 Plug the AC adapter cable into the DC power  connector. Then connect one end of the power cable to the power adapter, and the other end to a wall outlet.

- 2 Lift to open the display panel.

- 3 Press the power button  to turn on your notebook pc.

## ■ 2.3 Product overview

This section provides a description of the basic features of the Notebook PC.

 **NOTE:** The product's colours, port locations, indicators and specifications are subject to change and will depend on the final shipped product.

### ■ 2.3.1 Top-open view

**CAUTION:** When you are not using the computer, keep the LCD screen closed to protect it from dust. Do not put the computer on your lap or other parts of the body to avoid injury from the heat.

Top side components		Function description										
1	Microphone	Built-in microphone.										
2	Webcam	The built-in webcam allows picture taking or video recording.										
3	Camera status LED	The camera indicator shows the camera status.										
4	LCD screen	Displays of your notebook pc.										
5	Power button	 Turns on the power of your notebook pc.										
	Power status LED	The power indicator shows the power status.

8	Left and right touchpad buttons	The left and right buttons function like the left and right buttons on a standard mouse.										

### ■ 2.3.2 Left side view

Refer to the following illustration to identify the components on this side of the notebook pc.

Top side components		Function description
1	Power connector	 Connect the AC adapter into this connector.
2	Network jack	 Connect ethernet network.
3	USB 3.0 ports	 Connect USB devices. (such as USB drive, mouse or other device) into this jack.  USB Power when system shut down under AC mode: Power Rating is USB 3.0: 1.5A.
4	HDMI port	 Connect an external HDMI monitor.
5	Headphone and microphone jack	 Connect amplified speaker, headphones or microphone
6	Card reader	 SD/SDHC/SDXC 3.0 memory card

### ■ 2.3.3 Right/Front side view

Refer to the following illustration to identify the components on this side of the notebook pc.

Right side

Front side

Top side components		Function description
1	Kensington® Lock	 To be secured using Kensington® lock hole security products.
2	Vents	Thermal vents
3	Stereo Speakers	For stereo sound

# Getting started

## ■ 3.1 AC adapter

Please be noted that it is strongly recommended to connect the AC adapter and use the AC power while using this notebook pc for the first time. When the AC adapter is connected, the battery is being charged immediately.

Note that the AC adapter included in the package is approved for your notebook pc; using other adapter model may damage either the notebook pc or other devices attached to it.

**CAUTION:** Do not use inferior extension cords as this may result in damage to your notebook pc. The notebook pc comes with its own AC adapter. Do not use a different adapter to power the notebook pc and other electrical devices.

**NOTE:** The power adapter may become warm to hot when in use. Be sure not to cover the adapter and keep it away from your body.

## ■ 3.2 Knowing the keyboard

The following defines the colored hot keys on the keyboard.

The colored commands can only be accessed by first pressing and holding the function key while pressing a key with a colored command.

- Keyboard for Windows 10:

**NOTE:** The keyboard differs for each territory.

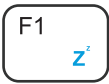

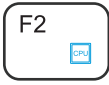

**CAUTION:** Operation system support based on product specification.

### ■ 3.2.1 Windows 10 for keyboard users

To activate these functions, press and hold down <Fn> together with the keys described below:

#### ■ Function keys

Keypad	Function description
 + 	<b>Suspend:</b> Press this key combination (Fn+F1) to enter sleep mode.
 + 	<b>Power Saving:</b> Press this key combination (Fn+F2) to enter power saving mode (CPU will keep the lowest speed).
 + 	<b>Display Switch:</b> Press this key combination (Fn+F3) to toggle between the devices that receive video card's output. The default is notebook pc monitor only.  Other options are video projector only, both showing the same image and both showing a portion of a larger desktop.
 + 	<b>RADIO on/off:</b> Press this key combination (Fn+F4) to turn all radios on or off.
<b>Annotation:</b> FN+F4 is combo key for Bluetooth and WIFI function on/off.	
 + 	<b>OSD: (on screen display):</b> Press this key combination (Fn+F5) to show a OSD bar for knowing the definition of function keys.

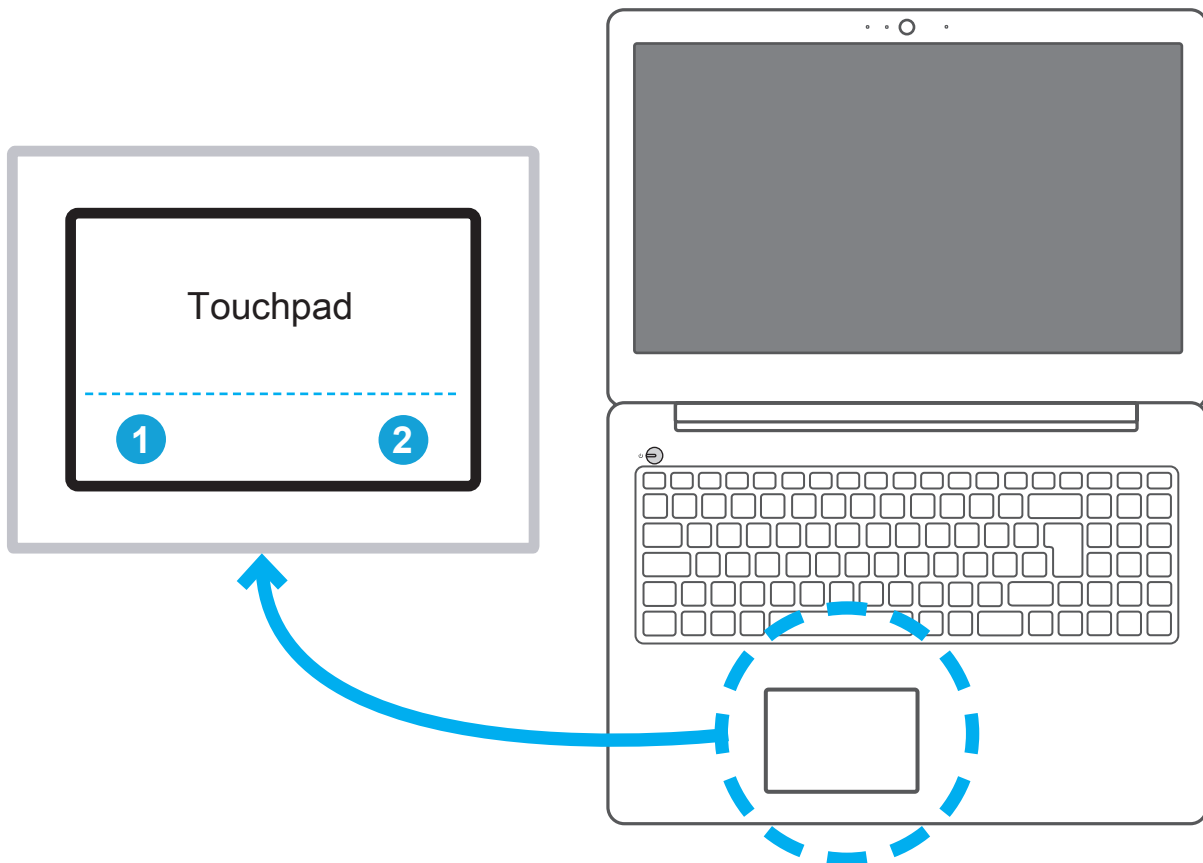

## ■ Function keys

Keypad	Function description	
 + 	Touch pad on/off:	Press this key combination (Fn+F6) to enter Touch pad on/off mode.
 + 	MUTE on/off:	Press this key combination (Fn+F8) to enter MUTE on/off mode.
 + 	Volume down:	Press this key combination (Fn+F9) to enter volume down mode.
 + 	Volume up:	Press this key combination (Fn+F10) to enter volume up mode.
 + 	Brightness down:	Press this key combination (Fn+F11) to decrease brightness of LCD display.
 + 	Brightness up:	Press this key combination (Fn+F12) to increase brightness of LCD display.

### ■ 3.3 Using the touchpad

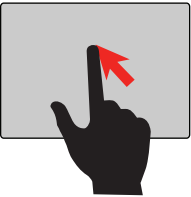

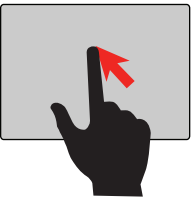

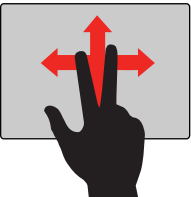

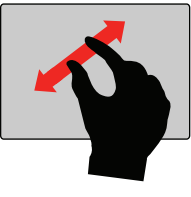

The touchpad is a rectangular electronic panel located just below your keyboard. You can use the static-sensitive panel of the touchpad and slide it to move the cursor. You can use the buttons below the touchpad as left and right mouse buttons.

Press the left **1** and right **2** buttons located on the edge of the touchpad to make selections and run functions. These two buttons are similar to the left and right buttons on a mouse. Tapping on the touchpad produces similar results.

**CAUTION:** Keep your fingers dry and clean while using the touchpad. Also keep the touchpad dry and clean. The touchpad is sensitive to finger movements. Therefore, the lighter the touch, the better the response. Tapping too hard will not increase the touchpad's responsiveness.

### ■ 3.3.1 Windows 10 touchpad usage

Finger gesture	Function description
Single-finger slides	 <p>Mouse cursor manipulation</p>
Single/two-finger tap, double tap	 <p>Primary button click, double click at cursor location</p>
Two-finger slides	 <p>Horizontal or vertical scroll (mouse wheel)</p>
Two-finger pinch	 <p>Zoom (  + mouse wheel )</p>

# BIOS Setup

## ■ 4.1 About BIOS Setup

The default BIOS (Basic Input/Output System) is already properly configured and optimized, there is normally no need to run this utility.

### ■ 4.1.1 When to Use BIOS Setup ?

You may need to run the BIOS Setup when:

- An error message appears on the screen during the system booting up and is requested to run SETUP.
- You want to change the default settings for customized features.
- You want to reload the default BIOS settings.

**CAUTION!** We strongly recommend that you change the BIOS settings only with the help of a trained service personnel.

### ■ 4.1.2 How to Run BIOS Setup ?

To run the BIOS Setup Utility, turn on the notebook pc and press the [Del] or [F2] key during the POST procedure.

If the message disappears before you respond and you still wish to enter Setup, either restart the system by turning it OFF and ON, or simultaneously pressing [Ctrl]+[Alt]+[Del] keys to restart.

The setup function only can be invoked by pressing [Del] or [F2] key during POST that provide an approach to change some setting and configuration the user prefer, and the changed values will save in the NVRAM and will take effect after the system rebooted.

Press [F7] key for Boot Menu.

**NOTE :** The drivers, BIOS and utilities bundled in the support DVD may vary by models and are subject to change without notice.

---

• When OS support is Windows 10 :

1. Click the Start  menu and select Settings.
2. Select Update and Security.
3. Click Recovery
4. Under Advanced startup, click Restart now.  
The system will restart and show the Windows 10 boot menu.
5. Select Troubleshoot.
6. Choose Advanced options.
7. Select UEFI Firmware Settings.
8. Click Restart to restart the system and enter UEFI (BIOS).
