Frequently Asked Questions

① **The device is not starting up**

• Check that the battery is fully charged – connect directly to power

• If the device does not start after 5 – 10 minutes on charge, please contact your local Leader Reseller or 1300 4 LEADER.

② I cannot hear sound out of the earphones
• Check whether the volume is set to 0 – try increasing using the volume control keys
• Check that the earphone plug is connected securely to the device

③ None of the buttons are working
• Please confirm whether the electronic lock is on. If the device is locked, try again after slipping upward lock or power button to unlock.

④ Serious noise
• Check the earphone plug is clean as dirt can cause noise.
• Check whether the music file itself is damaged. Try to confirm it by playing other music. If the file has been damaged, it may cause very serious noise or skipping.

⑤ The screen garbled
• Check that you have set the correct language or not. You can find and set it in < Settings> -- <System settings> -- <Language selection>.

⑥ Can't download files
• Make sure the device is properly connected
• Check the storage space of memory isn't full
• Check to see if the USB cable has been damaged
